- Separate Kindergarten Bathroom and Playground
- Attention to Social/Emotional Development
- Teaching that challenges and nurtures all Learning Styles

Faith, Character & Knowledge

Kindergarten is often a child's first exposure to a structured learning environment. It is an important experience. A child will typically approach education with confidence and enthusiasm if they are excited about learning.

SVCS utilizes the highly successful "Stepping Stones" faith-based Kindergarten curriculum. It is an integrated program that includes all subject areas with developmentally appropriate activities designed to meet each individual child's needs. Through thematic units rich in children's literature and inquiry-based activities, each child is encouraged to explore and discover.
